

## **Table of Contents**

<b>EXECUTIVE SUMMARY.....</b>	<b>ES-1</b>
ES.1 Introduction .....	ES-1
ES.2 Background Information .....	ES-1
ES.3 Interim Source Removal .....	ES-1
ES.4 FS Purpose and Process.....	ES-2
ES.5 Remedial Action Objectives .....	ES-2
ES.6 Remediation Units and Soil Volumes .....	ES-2
ES.7 Identification and Screening of Technologies .....	ES-3
ES.7.1 Effectiveness.....	ES-3
ES.7.2 Implementability.....	ES-4
ES.7.3 Cost.....	ES-4
ES.7.4 Consideration of Public Concerns .....	ES-4
ES.8 Treatability Studies .....	ES-4
ES.9 Detailed Analysis of Alternatives .....	ES-5
ES.10 Preferred Alternatives .....	ES-5
<b>CHAPTER 1 – INTRODUCTION .....</b>	<b>1-1</b>
1.1 Introduction .....	1-1
1.2 Site Description and History .....	1-1
1.3 Interim Source Removal .....	1-2
1.4 RI and RA Summary .....	1-2
1.4.1 Soil .....	1-3
1.4.2 Debris .....	1-3
1.4.3 Groundwater .....	1-3
1.5 Future Land Use.....	1-3
1.6 Future Land Use.....	1-3
1.7 FS Purpose and Report Organization .....	1-3
1.8 References for Chapter 1 .....	1-9
<b>CHAPTER 2 – REMEDIAL ACTION OBJECTIVES .....</b>	<b>2-1</b>
2.1 Introduction .....	2-1
2.2 Potentially Applicable State and Federal Requirements for the FS .....	2-1
2.2.1 Introduction .....	2-1
2.2.2 Applicable State and Federal Laws .....	2-2
2.3 Potential Cleanup Levels and Chemical-Specific ARARs .....	2-2
2.4 Potential Location-Specific Requirements.....	2-3
2.5 Potential Action-Specific Requirements .....	2-4
2.6 Screening of ARARs .....	2-6
2.7 References for Chapter 2 .....	2-8
<b>CHAPTER 3 – ESTIMATED VOLUMES OF SOIL FOR REMEDIATION .....</b>	<b>3-1</b>
3.1 Introduction .....	3-1
3.2 Definition of Remediation Units.....	3-1
3.3 Soil Volumes .....	3-1
3.4 Soil Volume Estimation Procedures .....	3-2
3.4.1 In-Place Volumes of Impacted Soil.....	3-3
3.5 Estimated Soil Volumes Summary .....	3-3
<b>CHAPTER 4 – IDENTIFICATION AND SCREENING OF TECHNOLOGIES.....</b>	<b>4-1</b>
4.1 Introduction .....	4-1
4.2 Development of Candidate Technologies and Process Options .....	4-1
4.3 Technology Screening .....	4-2
4.3.1 Preliminary Screening .....	4-2

4.3.2 Technologies That Rely On Stabilization/Solidification.....	4-2
4.3.3 Initial Qualitative Screening .....	4-2
4.4 Representative Processes Selected for the Development of Alternatives .....	4-3
<b>CHAPTER 5 – TREATABILITY STUDIES .....</b>	<b>5-1</b>
5.1 Introduction .....	5-1
5.2 Treatability Study Objectives .....	5-1
5.3 Treatability Study Approach.....	5-2
5.3.1 Lead- and Arsenic-Impacted Soils Characterization Study - Hazen Research Inc.....	5-3
5.3.2 Arsenic Wet Screening Study - Hart Crowser, Inc. ....	5-3
5.3.3 Arsenic Speciation Analysis - Battelle Pacific Northwest Laboratory (PNL) .....	5-3
5.3.4 Bench-Scale Soil Leaching Study – State University of New York, Buffalo.....	5-3
5.3.5 Bench-Scale Soil Leaching Study - Weyerhaeuser Analytical and Testing Services .....	5-4
5.4 Interpretation of Results .....	5-4
5.4.1 Physical Screening/Soil Washing .....	5-4
5.5 Conclusions and Recommendations .....	5-6
5.5.1 Soil Characterization .....	5-6
5.5.2 Volume Reduction .....	5-7
5.5.3 Metal Dissolution/Removal .....	5-7
5.6 References for Chapter 5 .....	5-21
<b>CHAPTER 6 – DEVELOPMENT AND SCREENING OF ALTERNATIVES .....</b>	<b>6-1</b>
6.1 Introduction .....	6-1
6.2 Screening Criteria.....	6-1
6.2.1 Effectiveness.....	6-1
6.2.2 Implementability.....	6-2
6.2.3 Cost.....	6-2
6.2.4 Consideration of Public Concerns .....	6-2
6.2.5 Ecology Cleanup Technology Preference .....	6-2
6.3 Assembly of Alternatives - Groundwater.....	6-3
6.3.1 Description and Screening of Alternatives – Groundwater .....	6-3
6.4 Assembly of Alternatives - Soil.....	6-3
6.5 Description and Screening of Alternatives .....	6-4
6.5.1 No Action .....	6-4
6.5.2 Capping .....	6-5
6.5.3 Cover.....	6-6
6.5.4 Cap/Cover.....	6-7
6.5.5 On Site Deposition, Cap and Cover.....	6-8
6.5.6 Offsite Disposal at a Landfill .....	6-9
6.5.7 Wet Screening, Classification, and Disposal of the Residual Soils at a Landfill .....	6-10
6.5.8 Wet Screening with On Site Deposition, Cover and Cap and Disposal of the Residual Soils at a Landfill.....	6-11
6.5.9 Wet Screening with Stabilization and On-Site Deposition and Cap/Cover .....	6-12
6.5.10 Soil Washing with Wet Screening, Classification, Acid/Base Extraction, and Disposal of the Residual Soils at a Landfill.....	6-13
6.5.11 Soil Washing with Wet Screening, Classification, Chelant Extraction, and Disposal of the Residual Soils at a Landfill.....	6-14
6.6 Ranking of Alternatives .....	6-15
6.7 Summary of Selected Alternatives .....	6-15
6.8 Retained Alternatives: Large Scale Applications .....	6-16
6.9 Retained Alternatives: Small Scale Applications.....	6-16
<b>CHAPTER 7 – DETAILED ANALYSIS OF ALTERNATIVES AND SELECTION OF PREFERRED ALTERNATIVES .....</b>	<b>7-1</b>

7.1	Introduction .....	7-1
7.2	Description of the Alternatives Retained for Detailed Analysis – Large Scale Applications .....	7-2
7.2.1	No Action .....	7-2
7.2.2	Common Activities .....	7-2
7.2.3	On-Site Deposition, Cap and Cover .....	7-2
7.2.4	Off-Site Disposal at a Landfill.....	7-4
7.2.5	Wet Screening with On-Site Deposition, Cap and Cover and Disposal of Residual Soil at a Landfill .....	7-4
7.3	Comparative Detailed Analysis of Alternatives – Large Scale Applications .....	7-4
7.3.1	Long-Term Effectiveness and Permanence.....	7-5
7.3.2	Reduction of Toxicity, Mobility, and Volume .....	7-6
7.3.3	Short-Term Effectiveness .....	7-7
7.3.4	Implementability.....	7-9
7.3.5	Cost.....	7-10
7.3.6	Consideration of Public Concerns .....	7-11
7.4	Summary of the Detailed Analysis.....	7-11
7.5	Preferred Alternative for Large Scale Applications .....	7-11
7.6	Retained Alternatives: Small Scale Applications.....	7-11
7.6.1	No Action .....	7-11
7.6.2	Cap.....	7-12
7.6.3	Cover.....	7-12
7.6.4	Cap/Cover.....	7-12
7.6.5	Off-Site Disposal at a Landfill.....	7-13
7.7	Comparative Detailed Analysis of Alternatives – Small Scale Applications .....	7-13
7.7.1	Long-Term Effectiveness and Permanence.....	7-14
7.7.2	Reduction of Toxicity, Mobility, and Volume .....	7-14
7.7.3	Short-Term Effectiveness .....	7-15
7.7.4	Implementability.....	7-16
7.7.5	Cost.....	7-16
7.7.6	Consideration of Public Concerns .....	7-16
7.8	Summary of the Detailed Analysis – Small Scale Applications .....	7-16
7.9	Preferred Alternative for Small Scale Applications .....	7-16
7.10	Comparative Detailed Analysis of Alternatives – Groundwater .....	7-17
7.10.1	Long-Term Effectiveness and Permanence.....	7-17
7.10.2	Reduction of Toxicity, Mobility, and Volume .....	7-17
7.10.3	Short-Term Effectiveness .....	7-17
7.10.4	Implementability.....	7-18
7.10.5	Cost.....	7-19
7.10.6	Consideration of Public Concerns .....	7-19
7.11	Summary of the Detailed Analysis.....	7-19
7.12	Preferred Alternative for Groundwater .....	7-19
<b>CHAPTER 8 – CONCEPTUAL DESIGN OF THE PREFERRED ALTERNATIVES .....</b>		<b>8-1</b>
8.1	Introduction .....	8-1
8.2	Conceptual Design by Remediation Unit (Large Scale Applications).....	8-1
8.3	Conceptual Design (Small-Scale Applications and Miscellaneous Small RUs) .....	8-3
8.4	Groundwater .....	8-4
8.5	Estimate of Total Site Remediation Cost .....	8-4
8.5.1	Cost for Remediation: Preferred Alternative – Large and Small Scale Applications .....	8-4
8.5.2	Cost of Groundwater Remediation.....	8-4
8.5.3	Cost for Total Site Remediation .....	8-5
<b>APPENDIX A – DESCRIPTION OF REMEDIATION TECHNOLOGIES FOR SOIL.....</b>		<b>A-1</b>
A.1	Introduction .....	A-1
A.2	No Action .....	A-1
A.3	Institutional Controls .....	A-1

A.3.1	Access Restriction .....	A-1
A.3.2	Monitoring .....	A-2
A.4	Containment .....	A-2
A.4.1	Cover.....	A-3
A.4.2	Cap.....	A-3
A.4.3	Liner .....	A-3
A.4.4	Cap/Cover.....	A-4
A.5	Dust Control .....	A-4
A.6	Removal .....	A-4
A.6.1	Excavation and Off-Site Disposal .....	A-5
A.7	Immobilization .....	A-5
A.7.1	Solidification/Stabilization.....	A-6
A.8	Treatment .....	A-7
A.8.1	Recycling .....	A-7
A.8.2	Thermal Treatment .....	A-7
A.8.3	Physico-Chemical Separation .....	A-8
A.9	References for Appendix A.....	A-10

**APPENDIX B – OVERVIEW OF SOIL TESTING PROCEDURES AND DATA INTERPRETATION..... B-1**

B.1	Whole Soil Procedures .....	B-1
B.2	Soil Fraction Procedures .....	B-3

**APPENDIX C – LEAD AND ARSENIC SOIL CHARACTERIZATION AND TREATABILITY STUDIES C-1**

C.1	INTRODUCTION .....	C-1
C.2	TREATABILITY STUDY REQUIREMENTS .....	C-1
C.3	BASIS FOR TREATABILITY STUDY SELECTION AND DESIGN .....	C-1
C.3.1	Treatability Study Objectives .....	C-1
C.3.2	Rationale and Constraints .....	C-2
C.4	TREATABILITY STUDY APPROACH AND INITIATIVES .....	C-2
C.4.1	Regulatory Analyses .....	C-3
C.4.2	Physical Analyses.....	C-3
C.4.3	Chemical Analyses .....	C-3
C.5	SUMMARY DESCRIPTION AND RESULTS OF TREATABILITY STUDIES COMPLETED.....	C-4
C.5.1	Introduction .....	C-4
C.5.2	Other Initiatives Supporting Hazen Studies .....	C-4
C.5.3	Lead-Impacted Soils .....	C-5
C.5.4	Test Results .....	C-6
C.5.5	Interpretation of Results .....	C-9
C.5.6	Arsenic-Impacted Soils.....	C-11
C.5.7	Test Results .....	C-12
C.5.8	Interpretation Results .....	C-14

**APPENDIX D – ARSENIC WET SCREENING STUDY .....** D-1

D.1	Objective and Overview .....	D-1
D.2	Treatability Sample Collection.....	D-1
D.3	Treatability Study Procedure.....	D-2
D.3.1	Physical Testing .....	D-2
D.3.2	Chemical Testing .....	D-3
D.3.3	Treatability Study Results.....	D-4
D.3.4	Conclusion .....	D-4

**APPENDIX E – RANKING OF ALTERNATIVES .....** E-1

**APPENDIX F – COST ESTIMATE FOR REMEDIAL ALTERNATIVES ANALYZED IN DETAIL.....F-1**

F.1	Capital Cost .....	F-1
F.1.1	Direct Capital Costs .....	F-1

F.1.2 Indirect Capital Costs.....	F-2
F.2 Total Estimated Cost.....	F-2

**APPENDIX G – ESTIMATION OF MINIMUM SOIL VOLUME REQUIRED FOR COST-EFFECTIVE ON-SITE TREATMENT G-1**

G.1 Assumptions.....	G-1
G.2 Conclusion .....	G-1

**APPENDIX H – DEVELOPMENT OF SOIL REMEDIATION LEVELS FOR THE GOLF COURSE GROUNDSKEEPER H-1**

H.1 Introduction .....	H-1
H.2 Development of Soil Remediation Levels for Golf Course Groundkeepers .....	H-1
H.2.1 Equation Input Values .....	H-2
H.2.2 Exposure Factors .....	H-2
H.2.3 Toxicity Values .....	H-2
H.2.4 Benchmark Values .....	H-3
H.3 Development of Soil Remediation Levels for Lead .....	H-3
H.4 References for Appendix H.....	H-7

**APPENDIX I – IMPRACTABILITY OF GROUNDWATER REMEDIATION AT THE FORMER DUPONT WORKS SITE, DUPONT, WA .....**I-1

I.1 Introduction .....	I-1
I.2 Site Groundwater Poses No Risk to Human Health or the Environment.....	I-2
I.2.1 Site Groundwater Poses No Risk to Human Health.....	I-2
I.2.2 Site Groundwater Poses No Risk to the Environment .....	I-2
I.3 Groundwater Recovery Will Occur Naturally .....	I-3
I.4 The DNT Source Has Been Removed .....	I-3
I.5 Rapid Natural Groundwater Flushing in Site Aquifers .....	I-3
I.6 Technical Infeasibility Considerations .....	I-3
I.7 Cost of Active Groundwater Remediation .....	I-4
I.7.1 Groundwater Pumping Rate Estimates.....	I-5
I.7.2 Sea Level Aquifer (SLA) Assumptions .....	I-6
I.7.3 Preliminary Cost Estimate for Groundwater Remediation.....	I-6
I.8 Conclusions .....	I-7
I.9 References for Appendix I .....	I-9

## **List of Tables**

Table 2-1 – Risk-Based Remediation Levels .....	2-7
Table 3-1 – Estimate of In-Situ Impacted Soil Volume for Each RU.....	3-5
Table 4-1 – Preliminary Screening of Technologies and Process Options .....	4-5
Table 4-2 – Evaluation of Process Options .....	4-10
Table 5-1 – Soil Characterization Parameters by Treatment Technology .....	5-8
Table 5-2 – Soil Characterization Parameters by Category .....	5-9
Table 5-3 – Summary of Treatability Studies .....	5-11
Table 5-4 – Lead-Soil Characterization Study Summary of Test Results-Hazen Research.....	5-12
Table 5-5 – Arsenic-Soil Characterization Study Summary of Test Results-Hazen Research.....	5-16
Table 5-6 – Arsenic Wet Screening Study .....	5-18
Table 5-7 – Arsenic Speciation Tests.....	5-19
Table 5-8 – Summary of UB Soil Washing Evaluation (State University of New York).....	5-20
Table 6-1 – Cost Summary.....	6-17
Table 7-1 – Estimated Time Frames by Alternative .....	7-21
Table 7-2 – Estimated Low and High Range Direct Costs.....	7-22
Table 7-3 – Estimated Low and High Range Indirect Costs .....	7-23
Table 7-4 – Estimated Low and High Range Total Costs.....	7-24
Table 7-5 – Summary of Detailed Analysis .....	7-25
Table 8-1 – Summary of Remediation Costs: Preferred Alternative – Large and Small Scale Applications .....	8-6
Estimated Low and High Remediation Costs for Large Scale Applications .....	8-6
Estimated Low and High Remediation Costs for Miscellaneous Small Remediation Units.....	8-6
Table 8-2 – Summary of Site Remediation Costs.....	8-7
Table C-1 – Soil Characterization Procedures by Category .....	C-18
Table C-1 – Soil Characterization Procedures by Category (Continued) .....	C-19
Table C-1 – Soil Characterization Procedures by Category (Continued) .....	C-20
Table C-2 – Soil Characterization Procedures by Treatment Technology .....	C-21
Table C-3 – Lead-Soil Characterization Study-Hazen Research-Summary of Test Results .....	C-22
Table C-3 – Lead-Soil Characterization Study-Hazen Research-Summary of Test Results (Continued) .....	C-23
Table C-3 – Lead-Soil Characterization Study-Hazen Research-Summary of Test Results (Continued) .....	C-24
Table C-3 – Lead-Soil Characterization Study-Hazen Research-Summary of Test Results (Continued) .....	C-25
Table C-3 – Lead-Soil Characterization Study-Hazen Research-Summary of Test Results (Continued) .....	C-26
Table C-4 – Arsenic-Soil Characterization Study-Hazen Research-Summary of Test Results .....	C-27
Table C-4 – Arsenic-Soil Characterization Study-Hazen Research-Summary of Test Results (Continued) .....	C-28
Table D-1 – Whole Samples Total Arsenic Results 250/500-Foot Grid and Narrow Gage Railroad Track .....	D-6
Table D-2 – Arsenic Distribution With Grain Size .....	D-7
Attachment D-1 – Wet Screening Process Data for Hart Crowser and Hazen Research Arsenic Treatability Studies .....	D-8
Table E-1 – Screening of Alternatives .....	E-2
Table E-2 – Weighting Factors Used for Ranking Alternatives .....	E-3
Table E-3 – Comparative Analysis of Alternatives Using Selected Weighting Factors .....	E-4
Table F-1 – High and Low Range Estimated Costs .....	F-4
Table F-2 – Estimated Low and High Range Direct Costs .....	F-5
Table F-3 – Estimated Low and High Range Indirect Costs .....	F-6
Table F-4 – Estimated Low and High Range Total Costs.....	F-7
Table F-5 – Estimated Low and High Remediation Costs for Miscellaneous Small Remediation Units .....	F-8

---

Table F-6 – Summary of Site Remediation Costs.....	F-9
Table H-1 – Soil Golf Course Groundskeeper Soil Remediation Levels .....	H-4
Table H-2 – Input Parameters and Results of the Adult Lead Model.....	H-5
Table H-3 – Golf Course Groundskeeper Soil Remediation Levels.....	H-6
Table I-1 – Summary of Cost <sup>(1)</sup> Estimates for Implementing Groundwater Pump and Treat for the Former DuPont Works Site.....	I-8

## **List of Figures**

Figure 1-1 – Former DuPont Works Site Vicinity Map.....	1-5
Figure 1-2 – Land Use and Remediation Units.....	1-6
Figure 1-3 – Miscellaneous Small Remediation Units.....	1-7
Figure 1-4 – Method for Screening Remedial Alternatives .....	1-8
Figure 6-1 – Relationship of Screening Criteria to the Evaluation Criteria .....	6-18
Figure C-1 – Flow sheet for Sample Preparation and Testing .....	C-29
Figure G-1 – Sensitivity of Remediation Costs to Volume of Soil Treated .....	G-2

## **ACRONYMS**

<b>Acronym</b>	<b>Definition</b>
ASIL	Ambient source impact level
AOC	Area of Contamination
ARAR	Applicable or relevant and appropriate requirement
AKART	All known, available, and reasonable treatment
AST	Above-ground storage tank
BDAT	Best demonstrated available technology
cPAH	Carcinogenic polycyclic aromatic hydrocarbons
CEC	Cation exchange capacity (see Appendix B)
CERCLA	Comprehensive Environmental Response, Compensation and Liability Act
CGEST	University of Cincinnati Center for GeoEnvironmental Science and Technology
CSL	Cleanup Screening Level
CFR	Code of Federal Regulations
CY	Cubic yards
DERS	DuPont Environmental Remediation Services
DNT	Dinitrotoluene
DuPont	E.I. DuPont de Nemours & Co.
Ecology	Washington State Department of Ecology
EPA	U.S. Environmental Protection Agency
ELP	Equilibrium leaching procedure
FS	Feasibility study
GANC	Generalized acid neutralization capacity (see Appendix B)
ISD	Inorganic solid debris
ISV	<i>In situ</i> vitrification
K <sub>d</sub>	Soil: water partitioning coefficient
LDRs	Land disposal restrictions
MANC	Metals with acid neutralization capacity (see Appendix B)
MDL	Method detection limit
M	Million
MMAN	Monomethylamine nitrate
MTCA	Model Toxics Control Act
NAX	Nitroaromatic explosives
NFA	No further action
NGRR	Narrow gage railroad
NESHAPs	National Emission Standards for Hazardous Air Pollutants
O&M	Operation and maintenance
ODW	EPA Office of Drinking Water
PH	pH (— log <sub>10</sub> hydrogen ion concentration)
PAH	Polycyclic aromatic hydrocarbons
PNL	Pacific Northwest Laboratory
PPE	Personal Protective Equipment
PSAPCA	Puget Sound Air Pollution Control Agency
PSI	Pounds per square inch

---

PW	Problem waste
QA/QC	Quality assurance/quality control
QAPP	Quality Assurance Project Plan
RA	Risk assessment
RAO	Remedial action objective
RCRA	Resource Conservation and Recovery Act
RCW	Revised Code of Washington
Redox	Reduction/oxidation potential (see Appendix B)
RGANC	Reverse generalized acid neutralization capacity (see Appendix B)
RI	Remediation investigation
RI/FS	Remedial investigation and feasibility study
RMANC	Reverse metals with acid neutralization capacity (see Appendix B)
RREL	Risk Reduction Engineering Laboratory
CL or RL	Statistical action level
SAR	Synthetic acid rain (see Appendix B)
SARA	Superfund Amendments and Reauthorization Act
SEM	Scanning electron microscopy (see Appendix B)
Site	Former DuPont Works Site
SITE	Superfund Innovation Technologies Evaluation
SMS	Sediment Management Standard
SQS	Sediment Quality Standard
T-BACT	Best available control technologies for toxics
TCLP	Toxicity characteristic leaching procedure (see Appendix B)
TGA	Thermal gravimetric analysis
TNT	2,4,6-trinitrotoluene
TPH	Total petroleum hydrocarbons
UCL	Upper confidence limit
USC	United States Code
USDA	United States Department of Agriculture
UST	Underground storage tank
VOA	Volatile organics analysis
VOC	Volatile organic compounds
VISITT	Vendor Information System for Innovative Treatment Technologies
WAC	Washington Administrative Code
Weyerhaeuser	Weyerhaeuser Company
XRF	X-ray fluorescence (Appendix B)
2,4-DNT	2,4-dinitrotoluene
2,6-DNT	2,6-dinitrotoluene
µg/L	Micrograms per liter
mg/L	Milligrams per liter
µg/kg	Micrograms per kilogram
mg/kg	Milligrams per kilogram
RL	Remediation Level
UB	State University of New York at Buffalo
